DICK IN SPACE

INTERGALACTIC DICK SPACEY 007 and a half GOES APE

Multiple murders, madness and mayhem as the biggest Dick in the cosmos tracks down a karmic killer, rampant vegetables, unstable body parts and irrational fears. Romantics call him an existential hero, psychiatrists call him ****ing bonkers. All he knows is – he's a dick on a mission, and it takes an hour of emotional carnage, lunatic problem solving, and physical endurance before he finally plants his mighty barrel in the killer's psyche. **FREE admission.**
